一旦使用搜尸犬或技术锁定可疑区域，就会开始缓慢而痛苦的残骸清理工作，为焦急等待的家属寻回亲人。

I'm drawn by Ashley Gold, Technology and Policy reporter at Axios.

我是Axios科技与政策记者阿什利·戈尔德。

First of all, how big deal is it that Yelinda Yekareno is going and why do you think she is?

Is it linked to what's happened with GROC?

As far as I know, it is not directly linked to what has happened with GROC, but since Yelinda Yekareno joined X, she's had a very tough job.

据我所知，这与GROC事件没有直接关联，但自耶琳达·耶卡雷诺加入X以来，她的工作一直非常艰难。

She's had to woo advertisers back to the platform after there was a mass exodus following Elon Musk's takeover of the app and she has had to steer it in the direction of a more normal predictable company, which was a very hard task given that Elon Musk is a very unpredictable guy.

在马斯克收购该应用导致广告商大规模撤离后，她不得不重新争取广告商回归，并努力将公司引向更正常、可预测的发展方向——鉴于马斯克本人极其难以预测，这任务异常艰巨。

[Back to Top](#)

bilibili 00:14:25

► It has been at the helm.

她一直掌舵公司。

► So I'm sure behind the scenes she's had her clashes with Elon Musk and she's had her struggles in sort of keeping the business afloat and I'm sure GROC and what was going on with the content moderation there was part of it, but I do think her stepping down is part of something bigger.

我相信她与马斯克有过幕后冲突，在维持公司运营方面也历经挣扎，GROC及其内容审核问题确实是部分原因，但她的离职更关乎全局。

► What do you think this means the company is going to go?

你认为这对公司意味着什么？

[Back to Top](#)

bilibili 00:14:46

► It's hard to say who would be willing to be the next CEO of X.

很难说谁愿意接任X公司CEO。

► Like I said, as we all have seen based on Elon Musk's actions here in the US working for Donald Trump and later having a falling out with him, he's a really unpredictable person and it's hard to have a stable business that attracts add dollars when the main face that's attached to Elon Musk can be pretty volatile and unpredictable.

正如我们所见，从马斯克为特朗普工作到后来与其闹翻，他确实难以捉摸。当与马斯克绑定的主要形象如此善变时，很难维持吸引广告商的稳定业务。

► So it will be very interesting to see who he hires next if he hires anyone at all.

所以观察他下一步会聘用谁（如果他还招人的话）将非常有趣。

[Back to Top](#)

bilibili 00:15:22

► And on GROC itself, the chatbot, I mean the whole question of accuracy and sort of content moderation within chatbots is obviously known and yet what happened with GROC was obviously very very difficult and problematic.

至于GROC本身，聊天机器人的准确性和内容审核问题众所周知，但GROC事件显然极其棘手。

► Yeah, absolutely.

确实如此。

► Chatbots are difficult.

聊天机器人很复杂。

► They can only spit out, you know, fragments of information that they are fed by users.

它们只能输出用户输入的信息片段。

[Back to Top](#)

bilibili 00:15:52

► And in this particular case, Elon Musk, you know, a couple weeks prior had put out a call for users to tell him what sort of content they wanted to see in X.

具体到本案，马斯克几周前曾公开征集用户想在X平台上看到的内容类型。

► And because he has said he wanted GROC as part of X to be the non-woke AI chatbot.

由于他宣称希望作为X平台组成部分的GROC成为"反觉醒"AI聊天机器人。

► So people responded with pretty inflammatory things, anti-Semitic things, heat speech.

因此用户反馈了大量煽动性、反犹主义和仇恨言论内容。

这就是专注此类内容的结果。

▶ And as Elon Musk is doing, which is focusing on what he calls free speech above all rather than putting in guardrails, like some other companies have tried to do.

正如马斯克所为——他优先考虑所谓"言论自由"，而非像其他公司那样设置护栏。
